

Anthony Currie

Chicago, IL | (773) 440-1375 | anthonycyber.com | anthonycyber96@gmail.com

Professional Summary

IT Support professional with 7+ years of hands-on experience resolving technical issues across Windows and macOS environments. Successfully handled **2,500+ support incidents** with a strong track record of timely resolution and minimal escalation. Brings over **1,500 hours of technical training and applied experience**, including coursework in cybersecurity and IT systems. Currently completing Per Scholas IT Support training aligned with CompTIA A+, with hands-on experience in Active Directory, network troubleshooting, and endpoint management. Known for strong problem-solving, clear communication with non-technical users, and the ability to quickly adapt in fast-paced support environments

Technical Knowledge

Hardware: Desktops, Laptops, Mobile Devices,

Software: Office 365, Google Workspace, Active Directory, Jira, Zoom, Service Now, Azure,

Networking: (TCP/IP, DNS, DHCP, VPN, LAN/WAN, Wi-Fi),

Operating Systems: Windows 10, iOS, MacOS, AndroidOS, Linux,

Core Competencies: Endpoint Analysis, Access Control, User Provisioning Log Review, SIEM Foundations, Incident Triage, Remote Desktop Support

Certifications: CompTIA A+, Google IT Support Professional, Google AI Essentials, Google Cybersecurity , IBM Cybersecurity Analyst Professional Certificate, Harvard CS50: Introduction to Computer Science & Python, ServiceNow ,

Technical Experience

Per Scholas | Chicago, IL

April 2026 - July 2026

IT Support

- Provide technical support for desktops, laptops, and mobile devices, troubleshooting hardware and software issues
- Install, configure, and maintain operating systems including Windows, macOS, and basic Linux environments
- Diagnose and resolve network connectivity issues (Wi-Fi, LAN, VPN) to minimize downtime
- Perform hardware repairs and upgrades such as RAM, hard drives, and peripheral devices

Studio Systems Manager | Chicago IL

2015 - 2022

Technical Support Lead | Free Lance

- Resolved **2,500+ technical incidents** across macOS, Windows, and audio hardware, maintaining a strong track record of first-contact resolution and minimal escalation
- Owned the full troubleshooting lifecycle, including issue diagnosis, resolution, and documentation, ensuring consistent and repeatable support processes
- Diagnosed and resolved complex issues involving system performance, driver conflicts, OS errors, and software compatibility
- Configured macOS systems end-to-end, including software installation, OS updates, performance tuning, and workflow optimization
- Improved system stability and reduced CPU-related disruptions by optimizing resource usage, plugin management, and system configurations
- Delivered **40+ hours/week of remote technical support** via phone, email, Zoom, and messaging platforms, adapting communication to users with varying technical backgrounds
- Supported high-demand clients in time-sensitive environments, maintaining system reliability and minimizing downtime during critical operations
- Managed flexible, on-call support across off-hours and overnight sessions, demonstrating reliability in fast-paced and unstructured environments

Technical Projects and Self-Study

Cybersecurity & IT Training | 2023–2024 (1,500+ Hours)

- Python automation scripting, Linux file management and security configuration, network traffic analysis via Wireshark

- SIEM fundamentals, event log review, endpoint troubleshooting, Entra ID configuration in homelab environment
- Completed: Google Cybersecurity Professional Certificate (2024), IBM Cybersecurity Analyst Professional Certificate (2024), Harvard CS50: Intro to Computer Science & Python (2023–2024)

Education

Columbia College | SAE Institute Chicago | Audio Engineering & Production 2015 - 2018
